Report No. 2025-187 April 2025

FLORIDA AGRICULTURAL AND MECHANICAL UNIVERSITY DEVELOPMENTAL RESEARCH SCHOOL

Florida Education Finance Program Full-Time Equivalent Student Enrollment

For the Fiscal Year Ended June 30, 2023

Sherrill F. Norman, CPA Auditor General

Attestation Examination

Board Members and Superintendent

During the 2022-23 fiscal year, Dr. Sarah Price served as Interim Dean of the College of Education for Florida Agricultural and Mechanical University (FAMU) from November 4, 2022, Dr. Allyson Watson served as Dean of the College of Education through November 3, 2022, Micheal D. Johnson served as Superintendent of the FAMU Developmental Research School and the following individuals served as School Advisory Board members:

Terry V. Watson, Chair Dr. Lavetta Henderson, Faculty Representative Dr. Serena Roberts, Faculty Representative Kendall Jones, Staff Representative Dr. Shawnta Friday-Stroud, Parent Representative Zsa Zsa Ingram-Fitzpatrick, Parent Representative Adrienne Bronson, Student Representative

The team leader was John Ray Speaks, Jr., CPA, and the examination was supervised by Jennifer Taylor, CPA.

Please address inquiries regarding this report to Jacqueline Bell, CPA, Audit Manager, by e-mail at jacquelinebell@aud.state.fl.us or by telephone at (850) 412-2811.

SUMMARY OF ATTESTATION EXAMINATION

Except for the material noncompliance described below involving teachers and reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located for students in Basic with Exceptional Student Education (ESE) Services, the Florida Agricultural and Mechanical University Developmental Research School (School) complied, in all material respects, with State requirements relating to the classification, assignment, and verification of the full-time equivalent (FTE) student enrollment, including teacher certification, as reported under the Florida Education Finance Program (FEFP) for the fiscal year ended June 30, 2023. Specifically, we noted:

- State requirements governing teacher certification, School Advisory Board approval of out-of-field teacher assignments, or notification to parents regarding teachers' out-of-field status, were not met for one of the three teachers in our test.
- Exceptions involving reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located for one of the six students in our Basic with ESE Services test.

Noncompliance related to the reported FTE student enrollment resulted in three findings. The resulting proposed net adjustment to the School's reported, unweighted FTE totaled negative .5000 but has a potential impact on the School's weighted FTE of negative .5630.

The weighted adjustments to the FTE student enrollment are presented in our report for illustrative purposes only. The weighted adjustments to the FTE student enrollment do not take special program caps and allocation factors into account and are not intended to indicate the weighted FTE used to compute the dollar value of adjustments. That computation is the responsibility of the Department of Education (DOE). However, the gross dollar effect of our proposed adjustments to the FTE may be estimated by multiplying the proposed net weighted adjustments to the FTE student enrollment by the base student allocation amount. The base student allocation for the fiscal year ended June 30, 2023, was \$4,587.40 per FTE. For the School, the estimated gross dollar effect of our proposed adjustments to the reported FTE student enrollment is negative \$2,583 (negative .5630 times \$4,587.40).

The ultimate resolution of our proposed adjustments to the FTE student enrollment and the computation of their financial impact is the responsibility of the DOE.

THE SCHOOL

The School was established pursuant to Section 1002.32(2), Florida Statutes, as a developmental research school and is affiliated with the Florida Agricultural and Mechanical University located in Tallahassee, Florida. Section 1002.32(3), Florida Statutes, specifies that developmental research schools are to provide a vehicle for the conduct of research, demonstration, and evaluation regarding management, teaching, and learning. Additionally, Section 1002.32(3)(a), Florida Statutes, provides that the primary goal of a developmental research school is to enhance instruction and research in specialized subjects that include mathematics, science, computer science, and foreign languages, while also

providing an education in nonspecialized subjects. The School offers instruction in basic education and exceptional education and serve students in PK through 12th-grade.

In accordance with Section 1002.32(8), Florida Statutes, an Advisory Board has been established to provide general oversight and guidance to the School. The chief executive officer of the School, pursuant to Section 1002.32(7), Florida Statutes, is a Director or a Principal. The University governance is managed by a Superintendent with overall governance by the Dean of the College of Education.

For the fiscal year ended June 30, 2023, State funding totaling \$4.9 million was provided through the FEFP to the School for the School-reported 606.21 unweighted FTE as recalibrated. The primary sources of funding for the School are funds from the FEFP, Federal grants, and donations.

FEFP

FTE Student Enrollment

Florida school districts and developmental research schools receive State funding through the FEFP to serve PK through 12th-grade students (adult education is not funded by the FEFP). The FEFP was established by the Florida Legislature in 1973 to guarantee to each student in the Florida public school system, including charter schools, the availability of programs and services appropriate to the student's educational needs that are substantially equal to those available to any similar student notwithstanding geographic differences and varying local economic factors. To provide equalization of educational opportunity in Florida, the FEFP formula recognizes: (1) varying local property tax bases, (2) varying program cost factors, (3) district cost differentials, and (4) differences in per-student costs for equivalent educational programs due to sparsity and dispersion of student population.

The funding provided by the FEFP is based on the numbers of individual students participating in particular educational programs. A numerical value is assigned to each student according to the student's hours and days of attendance in those programs. The individual student thus becomes equated to a numerical value known as an unweighted FTE student enrollment. For brick and mortar school students, one student would be reported as 1.0 FTE if the student was enrolled in six courses per day at 50 minutes per course for the full 180-day school year (i.e., six courses at 50 minutes each per day is 5 hours of class a day or 25 hours per week, which equates to 1.0 FTE). For virtual education students, one student would be reported as 1.0 FTE if the student has successfully completed six courses or credits or the prescribed level of content that counts toward promotion to the next grade. A student who completes less than six credits will be reported as a fraction of an FTE. Half-credit completions will be included in determining an FTE student enrollment. Credits completed by a student in excess of the minimum required for that student for graduation are not eligible for funding.

School districts and developmental research schools report all FTE student enrollment regardless of the 1.0 FTE cap. The DOE combines all FTE student enrollment reported for the student by all school districts, including the Florida Virtual School. The DOE then recalibrates all reported FTE student enrollment for each student to 1.0 FTE if the total reported FTE for the student exceeds 1.0 FTE. The FTE student enrollment reported by the Department of Juvenile Justice (DJJ) for FTE student enrollment earned beyond the 180-day school year, and FTE reported for the Family Empowerment Scholarship Programs are not included in the recalibration to 1.0 FTE.

All FTE student enrollment is capped at 1.0 FTE except for the FTE student enrollment reported by the DJJ for students beyond the 180-day school year and FTE related to the Family Empowerment Scholarship Programs. However, if a student only has FTE student enrollment reported in one FTE membership survey¹ of the 180-day school year (Survey 2 or Survey 3), the FTE student enrollment reported will be capped at .5000 FTE, even if FTE student enrollment is reported in Survey 1 or Survey 4, with the exception of FTE student enrollment reported by the DJJ for students beyond the 180-day school year and FTE related to Family Empowerment Scholarship Programs.

¹ FTE is determined and reported during the school year by means of four FTE membership surveys that are conducted under the direction of School management. See Note A6. for more information on surveys.

The President of the Senate, the Speaker of the House of Representatives, and the Legislative Auditing Committee

INDEPENDENT AUDITOR'S REPORT

Report on Full-Time Equivalent Student Enrollment

We have examined the Florida Agricultural and Mechanical University Developmental Research School (School) compliance with State requirements relating to the classification, assignment, and verification of the full-time equivalent student enrollment including teacher certification reported under the Florida Education Finance Program for the fiscal year ended June 30, 2023. These requirements are found primarily in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; State Board of Education Rules, Chapter 6A-1, Florida Administrative Code; and the *FTE General Instructions 2022-23* issued by the Department of Education.

Management's Responsibility for Compliance

School management is responsible for the School's compliance with the aforementioned State requirements, including the design, implementation, and maintenance of internal control to prevent, or detect and correct, noncompliance due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the School's compliance with State requirements based on our examination. Our examination was conducted in accordance with attestation standards for a direct examination engagement established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the classification, assignment, and verification of the full-time equivalent student enrollment including teacher certification reported by the School under the Florida Education Finance Program complied with State requirements in all material respects.

An examination involves performing procedures to obtain evidence about whether the School complied with State requirements. The nature, timing, and extent of the procedures selected depend on our

judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our modified opinion. Our examination does not provide a legal determination on the School's compliance with State requirements. The legal determination of the School's compliance with these requirements is the responsibility of the Department of Education.

We are required to be independent of the School and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our examination engagement.

An examination by its nature does not include a review of all records and actions of School management and staff and, as a consequence cannot be relied upon to identify all instances of noncompliance, fraud, waste, abuse, or inefficiency. Because of these limitations and the inherent limitations of internal control, an unavoidable risk exists that some material noncompliance may not be detected, even though the examination is properly planned and performed in accordance with attestation standards.

Opinion

Our examination disclosed material noncompliance with State requirements relating to the classification, assignment, and verification of full-time equivalent student enrollment as reported under the Florida Education Finance Program for teachers and students in our Basic with Exceptional Student Education Services test involving reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located.

In our opinion, except for the material noncompliance with State requirements described in the preceding paragraph involving teachers and reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located for students in Basic with Exceptional Student Education Services, the Florida Agricultural and Mechanical University Developmental Research School complied, in all material respects, with State requirements relating to the classification, assignment, and verification of the full-time equivalent student enrollment including teacher certification reported under the Florida Education Finance Program for the fiscal year ended June 30, 2023.

Other Reporting Required by Government Auditing Standards

In accordance with attestation standards established by *Government Auditing Standards*, we are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses² in internal control; fraud and noncompliance with provisions of laws or regulations that have a material effect on the School's compliance with State requirements; and any other instances that warrant the attention of those charged with governance; noncompliance with provisions of contracts or grant agreements, and waste and abuse that has a material effect on the School's compliance with State requirements. We are also required to obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as any planned corrective actions.

² A significant deficiency is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that material noncompliance will not be prevented, or detected and corrected, on a timely basis.

We performed our examination to express an opinion on the School's compliance with State requirements and not for the purpose of expressing an opinion on the School's related internal control over compliance with State requirements; accordingly, we express no such opinion. Because of its limited purpose, our examination would not necessarily identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses. However, the material noncompliance mentioned above is indicative of significant deficiencies considered to be material weaknesses in the School's internal controls related to teacher certification and reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located for students in Basic with Exceptional Student Education Services. Our examination disclosed certain findings that are required to be reported under *Government Auditing Standards* and all findings, along with the views of responsible officials, are described in *SCHEDULE D* and *MANAGEMENT'S RESPONSE*, respectively. The impact of this noncompliance with State requirements on the School's reported full-time equivalent student enrollment including teacher certification is presented in *SCHEDULES A, B, C,* and *D*.

The School's written response to this examination has not been subjected to our examination procedures and, accordingly, we express no opinion on it.

Purpose of this Report

Pursuant to Section 11.45(4)(c), Florida Statutes, this report is a public record and its distribution is not limited. Attestation standards established by the American Institute of Certified Public Accountants require us to indicate that the purpose of this report is to provide an opinion on the School's compliance with State requirements. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Sherrill F. Norman, CPA Tallahassee, Florida April 9, 2025

POPULATIONS, TEST SELECTION, AND TEST RESULTS FULL-TIME EQUIVALENT STUDENT ENROLLMENT

Reported FTE Student Enrollment

The funding provided by the FEFP is based on the numbers of individual students participating in particular educational programs. The FEFP funds ten specific programs that are grouped under four general program titles: Basic, ESOL, ESE, and Career Education 9-12. The unweighted FTE represents the FTE prior to the application of the specific cost factor for each program. (See *SCHEDULE B* and NOTE A3., A4., and A5.) For the fiscal year ended June 30, 2023, the Florida Agricultural and Mechanical University Developmental Research School (School) reported to the DOE 606.21 unweighted FTE as recalibrated for the one school.

Schools and Students

As part of our examination procedures, we tested the FTE student enrollment reported to the DOE for schools and students for the fiscal year ended June 30, 2023. (See NOTE B.) The population of schools (one) consisted of the total number of brick and mortar schools that offered courses in the FEFP-funded programs. The population of students (630) consisted of the total number of students in each program at the school in our tests.

We noted the following material noncompliance: exceptions involving reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located for one of the six students in our Basic with ESE Services test.³ None of the students who were reported in Career Education 9-12 student data had participated in On-the-Job Training.

Our populations and tests of schools and students are summarized as follows:

	Number of S	<u>chools</u>	Number of Stu at Schools Te		Students With	Recalibra Unweighte		Proposed
Programs	Population	<u>Test</u>	Population	<u>Test</u>	Exceptions	Population	Test	Adjustments
Basic	1	1	596	24	1	571.3300	22.0676	.9339
Basic with ESE Services	1	1	34	6	1	31.4600	5.8459	(.5002)
Career Education 9-12	1	-		<u>-</u>	Ξ.	<u>3.4200</u>	.0000	<u>(.9337</u>)
All Programs	1	1	<u>630</u>	<u>30</u>	<u>2</u>	<u>606.2100</u>	<u>27.9135</u>	<u>(.5000</u>)

Teachers

We also tested teacher qualifications as part of our examination procedures. (See NOTE B.) The population of teachers (four) consisted of the total number of teachers at the school in our test who taught courses in Career Education 9-12.

³ For Basic with ESE Services, the material noncompliance is disclosed in Finding 2 on SCHEDULE D.

We noted the following material noncompliance: State requirements governing teacher certification, School Advisory Board approval of out-of-field teacher assignments, and notification to parents regarding teachers' out-of-field status, were not met for one of the three teachers in our test.⁴

Proposed Adjustments

Our proposed adjustments present the net effects of noncompliance disclosed by our examination procedures, including those related to our test of teacher qualifications. Our proposed adjustments generally reclassify the reported FTE to Basic education, except for noncompliance involving a student's enrollment or attendance in which case the reported FTE is taken to zero. (See SCHEDULES B, C, and D.)

The ultimate resolution of our proposed adjustments to the FTE student enrollment and the computation of their financial impact is the responsibility of the DOE.

⁴ For teachers, the material noncompliance is disclosed in Finding 3 on SCHEDULE D.

EFFECT OF PROPOSED ADJUSTMENTS ON WEIGHTED FULL-TIME EQUIVALENT STUDENT ENROLLMENT

No. Program ¹ 101 Basic K-3	Proposed Net <u>Adjustment²</u> (.5000)	Cost <u>Factor</u> 1.126	Weighted <u>FTE³</u> (.5630)
103 Basic 9-12	1.4339	.999	1.4325
113 Grades 9-12 with ESE Services	(.5002)	.999	(.4997)
300 Career Education 9-12	<u>(.9337</u>)	.999	<u>(.9328</u>)
Total	<u>(.5000</u>)		<u>(.5630</u>)

¹ See Note A7.

² These proposed net adjustments are for <u>un</u>weighted FTE. (See SCHEDULE C.)

³ Weighted adjustments to the FTE are presented for illustrative purposes only. The weighted adjustments to the FTE do not take special program caps or allocation factors into consideration and are not intended to indicate the FTE used to compute the dollar value of adjustments. That computation is the responsibility of the DOE. (See NOTE A5.)

PROPOSED ADJUSTMENTS BY SCHOOL FULL-TIME EQUIVALENT STUDENT ENROLLMENT

Proposed Adjustments¹

No. Program	<u>#0351</u>	<u>Total</u>
101 Basic K-3	(.5000)	(.5000)
103 Basic 9-12	1.4339	1.4339
113 Grades 9-12 with ESE Services	(.5002)	(.5002)
300 Career Education 9-12	<u>(.9337</u>)	<u>(.9337</u>)
Total	<u>(.5000</u>)	<u>(.5000</u>)

¹ These proposed net adjustments are for <u>un</u>weighted FTE. (See Note A5.)

FINDINGS AND PROPOSED ADJUSTMENTS FULL-TIME EQUIVALENT STUDENT ENROLLMENT

<u>Overview</u>

Florida Agricultural and Mechanical University Developmental Research School (School) management is responsible for determining that the FTE student enrollment including teacher certification as reported under the FEFP is in compliance with State requirements. These requirements are found primarily in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; SBE Rules, Chapter 6A-1, FAC; and the *FTE General Instructions 2022-23* issued by the DOE. All noncompliance disclosed by our examination procedures is discussed below and requires management's attention and action as presented in *SCHEDULE E*.

Findings

Our examination included the July and October 2022 reporting survey periods and the February and June 2023 reporting survey periods. (See NOTE A6.) Unless otherwise specifically stated, the Findings and Proposed Adjustments presented herein are for the October 2022 reporting survey period, the February 2023 reporting survey period, or both. Accordingly, our Findings do not mention specific reporting survey periods unless necessary for a complete understanding of the instances of noncompliance being disclosed.

Florida Agricultural and Mechanical University Developmental Research School (#0351)

1. [Ref. 35101] One student withdrew from school prior to the October 2022 reporting survey period and should not have been reported for FEFP funding. We propose the following adjustment:

101 Basic K-3 (.5000) (.5000)

2. [Ref. 35102] The IEP for one ESE student covering the October 2022 reporting survey period was not available at the time of our examination and could not be subsequently located. We propose the following adjustment:

103 Basic 9-12	.5002	
113 Grades 9-12 with ESE Services	<u>(.5002</u>)	.0000

3. [Ref. 35171] One teacher was not properly certified and was not approved by the School Advisory Board to teach out of field. The teacher held a School issued certificate in Aeronautical Sciences but taught courses that required certification in Engineering and Technology Education. We also noted that the students' parents were not notified of the teacher's out-of-field status. We propose the following adjustment:

Proposed Net Adjustments (Unweighted FTE)

<u>Findings</u>		Proposed Net Adjustments <u>(Unweighted FTE)</u>
Florida Agricultural and Mechanical University Developmental Resear	rch School (#0351) (Co	ntinued)
103 Basic 9-12 300 Career Education 9-12	.9337 <u>(.9337</u>)	<u>.0000</u>
		<u>(.5000</u>)
Proposed Net Adjustment		<u>(.5000</u>)

FINDING CAUSES, RECOMMENDATIONS, AND REGULATORY CITATIONS FULL-TIME EQUIVALENT STUDENT ENROLLMENT

FINDING CAUSES AND RECOMMENDATIONS

Florida Agricultural and Mechanical University Developmental Research School (School) management indicated that the issues identified in *SCHEDULE D* could be attributed to: (1) the student's withdraw documentation not being provided during the reporting survey week (Finding 1); (2) procedural errors in scheduling the IEP meeting (Finding 2); and (3) staff belief that the teacher was properly certified (Finding 3).

We recommend that School management exercise more care and take corrective action, as appropriate, to ensure that: (1) only students who are enrolled at least 1 day during the reporting FTE membership survey week are reported for FEFP funding; (2) IEPs are timely prepared and retained in readily accessible files; (3) teachers are appropriately certified or, if teaching out of field, are timely approved by the School Advisory Board to teach out of field; and (4) students' parents are timely notified in writing when students are assigned to out-of-field teachers.

The absence of statements in this report regarding practices and procedures followed by the School should not be construed as acceptance, approval, or endorsement of those practices and procedures. Additionally, the specific nature of this report does not limit or lessen the School's obligation to comply with all State requirements relating to the classification, assignment, and verification of the FTE student enrollment including teacher certification as reported under the FEFP.

NOTE A – SUMMARY FULL-TIME EQUIVALENT STUDENT ENROLLMENT

A summary discussion of the significant features of the Florida Agricultural and Mechanical University Developmental Research School (School), the FEFP, the FTE, and related areas is provided below.

1. The School

The School was established pursuant to Section 1002.32(2), Florida Statutes, as a developmental research school and is affiliated with Florida Agricultural and Mechanical University located in Tallahassee, Florida. Section 1002.32(3), Florida Statutes, specifies that developmental research schools are to provide a vehicle for the conduct of research, demonstration, and evaluation regarding management, teaching, and learning. Additionally, Section 1002.32(3)(a), Florida Statutes, provides that the primary goal of a developmental research school is to enhance instruction and research in specialized subjects that include mathematics, science, computer science, and foreign languages, while also providing an education in nonspecialized subjects. The School offers instruction in basic education and exceptional education and serves students in PK through 12th-grade.

In accordance with Section 1002.32(8), Florida Statutes, an Advisory Board has been established to provide general oversight and guidance to the School. The chief executive officer of the School, pursuant to Section 1002.32(7), Florida Statutes, is a Director or a Principal. The University governance is managed by a Superintendent with overall governance by the Dean of the College of Education.

For the fiscal year ended June 30, 2023, State funding totaling \$4.9 million was provided through the FEFP to the School for the School-reported 606.21 unweighted FTE as recalibrated. The primary sources of funding for the School are funds from the FEFP, Federal grants, and donations.

2. FEFP

Florida school districts and developmental research schools receive State funding through the FEFP to serve PK through 12th-grade students (adult education is not funded by the FEFP). The FEFP was established by the Florida Legislature in 1973 to guarantee to each student in the Florida public school system, including charter schools, the availability of programs and services appropriate to the student's educational needs that are substantially equal to those available to any similar student notwithstanding geographic differences and varying local economic factors. To provide equalization of educational opportunity in Florida, the FEFP formula recognizes: (1) varying local property tax bases, (2) varying program cost factors, (3) School cost differentials, and (4) differences in per-student cost for equivalent educational programs due to sparsity and dispersion of student population.

3. FTE Student Enrollment

The funding provided by the FEFP is based on the numbers of individual students participating in particular educational programs. A numerical value is assigned to each student according to the student's hours and days of attendance in those programs. The individual student thus becomes equated to a numerical value known as an unweighted FTE student enrollment. For example, for PK through

3rd-grade, 1.0 FTE is defined as one student in membership in a program or a group of programs for 20 hours per week for 180 days; for grade levels 4 through 12, 1.0 FTE is defined as one student in membership in a program or a group of programs for 25 hours per week for 180 days. For brick and mortar school students, one student would be reported as 1.0 FTE if the student was enrolled in six courses per day at 50 minutes per course for the full 180-day school year (i.e., six courses at 50 minutes each per day is 5 hours of class a day or 25 hours per week, which equates to 1.0 FTE). For virtual education students, one student would be reported as 1.0 FTE if the student has successfully completed six courses or credits or the prescribed level of content that counts toward promotion to the next grade. A student who completes less than six credits will be reported as a fraction of an FTE. Half-credit completions will be included in determining an FTE student enrollment. Credits completed by a student in excess of the minimum required for that student for graduation are not eligible for funding.

4. Recalibration of FTE to 1.0

School districts and developmental research schools report all FTE student enrollment regardless of the 1.0 FTE cap. The DOE combines all FTE student enrollment reported for the student by all school districts, including the Florida Virtual School. The DOE then recalibrates all reported FTE student enrollment for each student to 1.0 FTE if the total reported FTE for the student exceeds 1.0 FTE. The FTE student enrollment reported by the DJJ for FTE student enrollment earned beyond the 180-day school year, FTE related to the Family Empowerment Scholarship Programs are not included in the recalibration to 1.0 FTE.

All FTE student enrollment is capped at 1.0 FTE except for the FTE student enrollment reported by the DJJ for students beyond the 180-day school year and FTE related to the Family Empowerment Scholarship Programs. However, if a student only has FTE student enrollment reported in one FTE membership survey of the 180-day school year (Survey 2 or Survey 3), the FTE student enrollment reported will be capped at .5000 FTE, even if FTE student enrollment is reported in Survey 1 or Survey 4, with the exception of FTE student enrollment reported by the DJJ for students beyond the 180-day school year and FTE related to Family Empowerment Scholarship Programs.

5. Calculation of FEFP Funds

The amount of State and local FEFP funds is calculated by the DOE by multiplying the number of unweighted FTE in each educational program by the specific cost factor of each program to obtain weighted FTEs. Weighted FTEs are multiplied by the base student allocation amount and that product is multiplied by the appropriate cost differential factor. Various adjustments are then added to obtain the total State and local FEFP dollars. All cost factors, the base student allocation amount, cost differential factors, and various adjustment figures are established by the Florida Legislature.

6. FTE Reporting Surveys

The FTE is determined and reported during the school year by means of four FTE membership surveys that are conducted under the direction of School management. Each survey is a determination of the FTE membership for a period of 1 week. The surveys for the 2022-23 school year were conducted during and for the following weeks at the applicable schools: Survey 1 was performed July 11 through 15, 2022; Survey 2 was performed October 10 through 14, 2022; Survey 3 was performed February 6 through 10, 2023; and Survey 4 was performed June 12 through 16, 2023.

7. Educational Programs

The FEFP funds ten specific programs under which instruction may be provided as authorized by the Florida Legislature. The general program titles under which these specific programs fall are: (1) Basic, (2) ESOL, (3) ESE, and (4) Career Education 9-12.

8. Statutes and Rules

The following statutes and rules are of significance to the administration of Florida public education:

Chapter 1000, Florida Statutes, *Early Learning-20 General Provisions* Chapter 1001, Florida Statutes, *Early Learning-20 Governance* Chapter 1002, Florida Statutes, *Student and Parental Rights and Educational Choices* Chapter 1003, Florida Statutes, *Public K-12 Education* Chapter 1006, Florida Statutes, *Support for Learning* Chapter 1007, Florida Statutes, *Articulation and Access* Chapter 1010, Florida Statutes, *Financial Matters* Chapter 1011, Florida Statutes, *Planning and Budgeting* Chapter 1012, Florida Statutes, *Personnel* SBE Rules, Chapter 6A-1, FAC, *Finance and Administration* SBE Rules, Chapter 6A-6, FAC, *Special Programs I*

NOTE B – TESTING FTE STUDENT ENROLLMENT

Our examination procedures for testing provided for the selection of students, and teachers using judgmental methods for testing the FTE student enrollment including teacher certification as reported under the FEFP to the DOE for the fiscal year ended June 30, 2023. Our testing process was designed to facilitate the performance of appropriate examination procedures to test the School's compliance with State requirements relating to the classification, assignment, and verification of the FTE student enrollment including teacher certification as reported under the FEFP.

RE: FAMU DRS Audit Findings and Corrective Actions for Fiscal Year End June 30, 2023

Sherrill F. Norman, CPA Auditor General State of Florida Claude Denson Pepper Building, Suite G74 111 West Madison Street Tallahassee, Florida 32399-1450

Greetings Ms. Norman:

Pursuant to Section 11.45(4)(d), Florida Statutes, and within the 30-day time limit, FAMU DRS is submitting a written statement of explanation concerning all the findings, including therein actual or proposed corrective actions. An update to each proposed corrective action is also listed.

Finding: 035101

[Ref. 35101] One student withdrew from school prior to the October 2022 reporting survey period and should not have been reported for FEFP funding. We propose the following adjustment:

101 Basic K-3 (.5000) (.5000)

<u>Response</u>: The student was counted in the FAMU DRS FTE October 2022 reporting survey period as the parent did not provide proper documentation to withdraw the student during the time- period. Nor had the school district received records request from the receiving school. The FAMU DRS MIS Department will continue to work closely with the DRS Guidance/Attendance and Records Department and the district's FOCUS Team to ensure that students are properly vetted and withdrawn from the Student Information System (SIS) in an accurate manner.

<u>Corrective Action</u>: FAMU DRS will work closely with the DRS Guidance/Attendance and Records Department and the district's FOCUS Team to ensure that students are properly vetted and withdrawn from the Student Information System (SIS) in an accurate manner. The district has also consulted with its SIS manager, the Panhandle Area Educational Consortium (PAEC) to monitor and place proper alerts in the FOCUS system when students are no longer in attendance after a 5-day consecutive period. System notifications allow for proper school and parent notification of attendance and withdrawal of students when necessary.

Finding: 035102

[Ref. 35102] The IEP for one ESE student covering the October 2022 reporting survey period was not available at the time of our examination and could not be subsequently located. We propose the following adjustment:

103 Basic 9-12	.5002
113 Grades 9-12 with ESE Services	<u>(.5002</u>)
	.0000

Response: The updated student IEP was not available due to a procedural error in scheduling the IEP Review Meeting which was to be held at the end of the school year (5/31/2022). Once the procedural error was discovered by the ESE Director, she notified the ESE Secondary Support Facilitator to schedule the IEP Review Meeting (10/21/2022). Although there was a procedural error, the student still received ESE support and services from 06/1/2022 - 10/21/2022 as outlined in the existing IEP. The student has graduated successfully from FAMU DRS (MAY 2024). To ensure future compliance, trainings have been established for school specific procedures and practices related to the IEP process. The ESE Director will also continue to review and monitor the timeline documents regularly to ensure compliance dates are met. Also, PEER reports will be produced monthly during the monitoring and review process.

<u>Corrective Action</u>: The FAMU DRS ESE Department has moved all IEP actions including scheduled IEP Review Meetings to the Florida Department of Education Portal to Exceptional Education Resources (PEER) System. The PEER system will allow for ESE faculty and staff to receive timely notifications of student IEP review dates including required dates for IEP Review Meetings. ESE faculty and staff have also received proper training for the use of the PEER system. The ESE Director will also continue to review and monitor the PEER system to meet compliance and ensure that all ESE faculty and staff are properly trained each school year.

Finding: 035171

[Ref. 35171] One teacher was not properly certified and was not approved by the School Advisory Board to teach out of field. The teacher held a School issued certificate in Aeronautical Sciences but taught courses that required certification in Engineering and

Technology Education. We also noted that the students' parents were not notified of the teacher's out-of-field status. We propose the following adjustment:

103 Basic 9-12	.9337	
300 Career Education 9-12	<u>(.9337</u>)	.0000

<u>Response</u>: The FAMU DRS teacher was issued certification in Aeronautical Sciences as the classes he was scheduled to teach were in Aeronautical Sciences. However, due to a demand for additional electives and CTE courses he was scheduled to teach a course in Engineering and Technology Education. School scheduling personnel believed that his certification in Aeronautical Sciences would cover the required course in Engineering and Technology Education as Engineering and Technology Education is covered under Aeronautical Sciences. Once made aware of the discrepancy, FAMU DRS has updated it's out of field list to include the Engineering and Technology Education course for the teacher for Board review and approval.

<u>Corrective Action</u>: FAMU DRS will continue to monitor teacher assignments for courses through the school scheduling process and FOCUS input. Teachers deemed out of field will immediately be placed on the District's Out of Field List and provided to the School Advisory Board for review and approval. Parents will also be provided with proper notification of the teacher's out of field status.

FAMU DRS accepts the following findings, including, therein actual or proposed corrective actions imposed by the Auditor General's Office. Should you have any questions or concerns regarding the following responses or the content therein, please do not hesitate to contact me at (850) 412-5939 or email <u>micheal.johnson@famu.edu</u>. You may also email my Executive Assistant, Gale Blocker, at <u>gale.blocker@famu.edu</u>.

Sincerely,

Micheal D. Johnson Superintendent,

Cc: Dr. Sarah Price, Dean, College of Education Dr. Allyson Watson, Provost and VP of Academic Affairs Mr. Terry Watson, Chair, School Advisory Board
